VOLUME XXVII.

MT. STERLING, KENTUCKY, TUESDAY, JULY 10, 1917.

NUMBER 2

CHAUTAUQUA FOR NEXT YEAR

802 Tickets Signed For and the Redpath Will Return Here Next Summer.

The Redpath Chautauqua closed its week's engagement in this city Saturday night with a concert by Creators' band. The announcement that 802 tickets had been signed for next summer was received with much enthusiasm as only 700 tickets were required to be sold to guarantee the return of this splendid chautauqua bureau.

Chautauqua week in Mt. Sterling is always the feature week of the summer amusements and the Redpath people offer a splendid program which proves quite popular with local enthusiasts, and is both entertaining and elevating.

The features of the program this year were lectures by Harry L. Fogleman, B. F. McDonald, Lieut. Robt. Bowman, and Geo. L. McNutt; The Bohemian Orchestra; Beulah Buck Ladies' Quartet; "The Mikado," and the "Mother Goose Festival." Several other features on the program were enjoyed by a large number but we believe the above mentioned features were by far the most popular with a majority of the crowds that attended.

The Advocate is indeed glad that we are to have another Chautauqua next summer, and we are equally delighted that the Redpath Bureau will put it on as we believe they secure the very best available talent and always have a pleasant and competent corps of assistants in charge.

NO DRAFT NUMBERS DRAWN

The report last Thursday evening that the selective draft numbers had been drawn was erroneous and there was absolutely no foundation in the report which was spread broadcast over the country. It is highly probable that the drawing will be done according to serial numbers and on another page in this issue will be found the name of every man registered in Montgomery county and his serial number. It is thought about 2,000,000 names will be drawn and it is believed the drawing will take place the middle or latter part of the present week.

DELIVERS BUICKS

The Mt. Sterling Garage last week sold and delivered a handsome Buick touring car to Mr. Lawrence Fasset and also one to Mr. Chas. B. Mainline.

The Advocate for printing.

MAY RAISE PRICE HERE

It is reported that the Central Kentucky Natural Gas Co. will, beginning September 1st, increase the price of their product to 40 cents per thousand feet. We understand that this is the highest price the company can charge under their franchise and that every city served by them will be treated in the same manner. The contemplated raise will effect only those who use less than 5,000 feet per month. It is also reported that a minimum charge of 50 cents per month will be made for meter service whether that amount of gas is used or not.

Attention, Democrats.

Special registration of all men who failed to register on the regular registration day will be held at the office of the County Court Clerk in the Court House on Saturday, July 21st. This registration is for men that have reached their majority since regular registration for those who were sick, absent from the city, death or sickness in the family and removal from one ward in the city to another. Do not overlook the date as only on that day can you register.

Keller Greene, County Clerk
L. R. Douglas, D. C. 2-2t

APPOINTED SERGEANTS

Messrs. Ben and Russell Cox, sons of Dr. and Mrs. G. N. Cox, of this city, were last week appointed sergeants in the First Kentucky, which is stationed at Louisville. Both young men have many friends who will be pleased to learn of their advancement in their chosen profession. Mr. James Lloyd, of this city, has been transferred from the first to the second Kentucky.

DIES IN INDIANA

Mr. T. J. Carr received a telegram Saturday night announcing the death of his brother-in-law, Mr. William Atkins, which occurred at his home at Gadsden, Ind. Mr. Atkins was a Union soldier and was stationed at Mt. Sterling while in service. He is remembered here by many old friends who will regret to learn of his death.

FAIR TICKETS REDUCED

Season tickets for the Montgomery County Fair have been reduced from \$1.75 to \$1.60. The Health and Welfare League has charge of the sale of same and will receive 25 cents for every ticket sold. A splendid program is being offered this year and it is hoped to make this the banner year for the Montgomery County Fair.

WOMEN MAY VOTE IN PRIMARY

The question of whether or not women would be permitted to register on special registration having been put up to me, I placed the matter before the Attorney General of Kentucky and below will be found both his letter and a copy of his opinion:

July 5, 1917

Mr. Keller Greene,
Mt. Sterling, Ky.
Dear Sir:

We have your letter of the 4th inst. in which you ask to be advised if a woman who was in Mt. Sterling on the regular registration day and not sick but failed to register, can register at the approaching supplemental registration. I find that this department has passed upon this identical question and I am enclosing to you herewith a copy of the opinion, in which it is held that women may register although they were within the city on the registration day and not physically incapacitated for registering on that day.

Yours very truly,

D. O. Myatt,
Ass't Attorney General
April 20, 1917

Mr. Stephen T. Davis
Winchester, Ky.

My Dear Sir:

I have yours of the 17th asking for my construction of Section 1550 sub-section 17a and 20 of the Kentucky Statutes, with particular reference to registration by women in years when school elections are to be held in which women are entitled to vote.

My attention had heretofore been called to these sections or sub-sections, and it is my opinion that it was the intention of the General Assembly, by the passage of sub-section 17a, to give women the right to SPECIALLY register in any year in which elections are held in which women may participate, without reference to whether or not they were precluded from registering at a general registration in the preceding year, for any of the reasons set out in paragraphs 1, 2, 3 or 4 of sub-section 20 of Section 1550 Kentucky Statutes.

It will be noticed that 17a is an amendment, passed in 1914, to the original act of 1912. The Legislature evidently had in mind some method or provision whereby women could be specially registered in years in which school elections were held, probably based on the fact that in some years no such elections would be held, and there be no reason for a previous registration by women. Unless this construction should be placed on sub-section 17a, it would be without force or effect, because women, who are required to register, would be entitled to all privileges extended and allowed by sub-section 20, whether sub-section 17a were or were not enacted, and it cannot be presumed that the Legislature had enacted a vain law.

Therefore, I think that sub-section 17a provides a class not provided for in 20, that may be specially registered as provided for in 20, without regard to any of the reasons for failure to register as set out therein. Yours truly,

Assistant Attorney General
I shall therefore in conformity with the above opinion be prepared to register all women in Mt. Sterling who failed to register on the regular registration day, the Special Registration to be held at my office in the Court House on Saturday, July 21st.

RESOLUTIONS

We, the teachers of Montgomery county, realizing as never before our duty and responsibility to our fellow man and our country in the present world struggle as a result of this institute, do hereby pledge anew loyalty to our profession and to county Supt. Miss Sledd in her plans for the making of better schools and better homes in Montgomery county.

Therefore, be it resolved, That we offer our heartiest thanks to Miss Sledd, who from experience, knowing our needs, brought to us such instructors as were best fitted to supply such needs, and who abundantly fulfilled our expectations, and that we express our appreciation to Miss Sledd that by having institute during Chautauqua she has made it possible for many of us who otherwise would not have the opportunity to enjoy the rare privilege of hearing the masters in their respective arts.

Resolved, That we extend to Mrs. Burbridge our appreciation for her able instruction in music and the interest created in patriotic airs and to Prof. Goodwin for the beautiful flowers, and to Prof. Smith, for his ideas, advice and especially his plan of an iceless cold storage plant, which will improve the rural life by conserving the farm products, and to Miss Ora L. Adams, our instructor, for her able and patriotic addresses to the trustees and common school graduates July 4, who, being herself a county superintendent and formerly a rural teacher, has given us inspiration and enthusiasm as well as instruction and help such as the rural teacher can put into practical use.

Resolved, That we express our pleasure in having such delightful visitors as Miss Smith for her enjoyable music; Miss Dalton for her encouragement, which she gave to us by telling her varied experiences as a rural teacher and her associations with teachers; Prof. Coates, the father of our "Course of Study," for his thrilling appeal to us as citizens of America, whose patriotic duty in this turbulent period is not only to the children of our day schools but those unfortunates who, being of military age cannot read and write; to Miss Sweeney for her very helpful and entertaining address on Home Economics and that we will endeavor to make use of them.

Resolved, That we thank the members of the "Country Women's Club" and those who contributed to our very enjoyable reception at the Rest Rooms, thereby making it a sane way of celebrating Independence Day, and for the cordial invitation extended us to use the Rest Rooms.

Finally Resolved, That after having been benefited by such unusual advantages, we begin our work for the year with a determination to do not as those having ears and hearing not, but as hearing, remembering and trying to do. That we will teach as far as possible the patriotic airs to our pupils, thereby giving them a realization of duty, love and reverence due our country in this time of trial. That we will endeavor to teach the moonlight schools, so that hereafter having had an opportunity to learn, a stigma will rest upon those who are illiterate. Also that we will put forth every effort to increase our attendance and thereby eliminate the necessity of moonlight schools in the future; To teach history in relation to this war and our immediate community so that it will be a vital subject and not merely a record of past events; That as a forward step we resolve to co-operate in the Teacher's Club—organized at this institute—as a means of professional training offered in the adopted Reading Circle books and

other cultural programs: That we hold a county school fair as it has proven to be the biggest modern factor in the improvement of our rural schools. This fair to be held last Saturday in October—programs and plans to be followed as outlined by Miss Adams, who so ably presented them to the institute.

That we will co-operate with our health nurse in every way, realizing that a defective body cannot produce an active mind and that to improve either an individual or a community, the physical body must be well. That we will conscientiously teach and encourage our pupils to prepare for higher training, insist on eighth grade pupils taking examinations and entering the County High School, where free tuition is provided. Last, that we will look to the Supreme Teacher, the Giver of Life, for strength and help, that we will each day ask his help and blessing so that by our influence and example we may help our pupils and all with whom we come in contact to prepare for Higher Life, without which education is worse than useless.

Mr. Dan Arrasmith had been in poor health for several years. Mr. Tollie Arrasmith died suddenly from heart trouble. They were cousins and both were born and reared near Bethel, Bath county. Both are survived by families. These gentlemen were known to many of our citizens and the news of their deaths was received with sorrow. Mr. Dan was buried Saturday morning and Mr. Tollie Monday, both with Masonic honors. They were cousins of Mrs. A. R. Robertson and Mrs. Howard Anderson and had other relatives in this county.

CHANGES POSITION

Mr. Clarence Barnes has resigned his position with the Strother Motors Co., and has accepted a place with the local agency for the Standard Oil Co. Mr. Barnes is a capable and energetic young man and has many friends who will be interested to learn of his business change, which is in the way of a promotion.

USEFUL LIFE IS ENDED

Mr. T. F. Rogers, Sr., for Many Years a Leading Citizen, Dies Monday Afternoon.

A long useful Christian life came to a close Monday afternoon when the Grim Reaper took from our midst Mr. Thomas F. Rogers, Sr. Mr. Rogers had been in failing health for several years but death came unexpectedly and was a severe shock to his family and friends. Mr. Rogers was 70 years old, an elder and leading member of the Presbyterian church and always took great interest in church affairs and as long as his health would permit was a regular attendant at all services. In his contributions to the Master's cause he was always most liberal and for many years was one of the officers of his church. Mr. Rogers was a prominent member of the Odd Fellow's Lodge, being a former Grand Master of this State. He was engaged in the merchandise business here for a long time, but quit that to engage in other affairs up until the time of his retirement was engaged in the insurance and real estate business with his son, Mr. T. Foster Rogers.

A fine business man, just, honest and fair in all his dealings, he had the confidence and respect of all, and in the passing of this good man the community has suffered a heavy loss.

Deceased is survived by his wife, one daughter, Miss Charlotte, and three sons, James, of Eustis, Fla.; Harry, of Kansas City, Mo., and T. Foster, of this city. Funeral services will be conducted by Rev. Yeaman Thursday, but the hour has not been decided upon.

WANTED—A HOME MARKET

This town should have a home market place for every single product of the farm, large or small. It should be a place where the farmer can dispose of his produce at market prices and for spot cash, without the trouble and waiting incident to shipping to outside points. When this is done much of the farmer's money that goes out of town now will in future be spent right at home, with our home business men. This world does not recognize the policy of "something for nothing," hence if we want the farmer to help us we must be equally willing to aid him. Who has the brains and energy to make a start in this direction? It means much to the future welfare of each of us.

HAMSTRUNG AND STRANGLED

Not long ago a train of fourteen cars of potatoes, billed to the Chicago market, were discovered at a small town near that city, where they had been side tracked and left to rot—at a time when potatoes were selling at \$4.00 a bushel.

For a number of years now we have been learning of the willful destruction every season of such commodities as potatoes, cabbage, melons, apples and other fruits when there was an opportunity by so doing to force prices up in the interest of the speculators.

These food pirates have purchased acres and acres of fruit on the trees and then refused to allow them to be picked—kept them there to rot—in order to keep them from the open market.

In other ways the campaign of pillage and loot at the expense of the consumer has been going merrily on.

Of course, merely to designate the perpetrators of these outrages as robbers and pirates does not one particle of good except to afford some slight relief to our feelings. There seems to be nothing the country can do to prevent these outrages.

But there SHOULD be, and if we mistake not the temper of the American people, there soon WILL be.

When the countries of Europe first adopted the policy of government control of food stuffs we in this country congratulated ourselves that we live in a FREE country. Lately, however, we are beginning to learn a few things—that instead of the freedom of which we boast, we are hamstrung and strangled by a horde of piratical food speculators who have no conscience, know no law, and are devoid of the first element of humanity.

With the proof clearly before us that the people are being systematically and outrageously plundered, our Congress has the monumental effrontery to dawdle around and haggle over minor details while the poorer classes of our population are being driven to distraction.

With such examples before us, the notion of President Wilson in demanding food control by the government—even a dictator, if necessary—looks good to us. It will not keep the producer from receiving a fair and just price for his products, neither will it injure the consumer. But it will everlastingly put a crimp on the golden tail of the remorseless speculator.

It is time for Congress to enact adequate laws whereby the President can at once and for all put an end to this hamstringing and strangling of the American consumer.

WHO WILL IT BE?

WHAT WILL YOU DO?

With the actual draft upon us, there is much speculation as to who will be the first to go from our own community. But whoever it may be, we who remain should see that they are not forgotten by the "folks back home." We should ascertain the camps to which each one is assigned, and then through a home committee see that each is generously supplied with magazines, home papers, comfort bags, cheery letters, and anything that will make life more cheerful to them. No single individual going forth from this community to fight for his country should be overlooked, and all should be shown equal courtesy and attention. When the good people of this community organize such a committee the Advocate will be the first to contribute by furnishing a copy of this paper each week to each soldier who goes from our midst. What will you do?

LOUISVILLE CHEMIST FINDS SUBSTITUTE FOR SUGAR

Arthur M. Breckler, member of the firm of Janes & Breckler, consulting chemists, will go to Cincinnati within two weeks to take charge of a new \$150,000 factory in which will be manufactured a substitute for sugar recently discovered by Mr. Breckler.

The exact nature of his discovery and to what extent it will revolutionize activities in the sugar market are not known. The Louisville chemist is loath to discuss his substitute which is a syrup which will take the place of sugar in every way except for table use.

Cincinnati capitalists organized the company that was formed for the express purpose of manufacturing and marketing the product. The factory buildings have been completed and machinery is being installed in the plant, it is understood. Mr. Breckler is vice president of the company and will act as general manager of the concern. The factory will have a capacity of 20,000 pounds of syrup a year. It is expected the plant will be in operation before fall.

Mr. Breckler came to Louisville twelve years ago from Des Moines, Iowa, and is widely known as a chemist. He was a member of the Naval Advisory Board with Carl P. Nash and William Speed, both of whom are also Louisville men, whose duties it was to make a survey of Kentucky's industrial resources. Mr. Breckler is a graduate of Drake University and of the University of Chicago and is a member of the American Chemical Society. He will retain his connection with the Louisville firm in the capacity of consultant.

ADVERTISING WILL DO IT

The billions of dollars that our government and foreign nations are borrowing from our people will be spent right in this country for food stuffs and war supplies of all kinds. The bulk of this money will find its way into the hands of the millions of wage earners, and they in turn will spend most of it for the necessities of life. This community will get its share of those billions.

The shrewd home merchant knows this, and is already mapping out an extensive advertising campaign to offset the tremendous efforts of mail order houses and large city merchants. He will get his, for advertising will bring it to him.

The local merchant who forgets to advertise, who expects to increase his business without a proportionate increase in legitimate publicity expense, may discover to his cost that he is decreasing it instead.

OFFICER HERE ON VISIT

Mr. L. V. Morrell, of Snow Hill, N. C., well known tobacco man, who joined the Officer's Reserve Corps from Mt. Sterling and has been undergoing intensive training at Ft. Benjamin Harrison, Ind., since May 15th, arrived here Tuesday night on business. He was granted two days' leave, and returned to the Fort Wednesday evening. Mr. Morrell is delighted with the work of the reserve camp and says the other Mt. Sterling boys, Stanley Brown and Thomas Grubbs, are getting along fine. Mr. Morrell has been greatly benefited physically by the training and looks much better than when he left here a few weeks ago.

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

DON'T RISK NEGLECT

Don't neglect a constant back-ache, sharp, darting pains or kidney and bladder disorders. The danger of dropsy or Bright's disease is too serious to ignore. Use Doan's Kidney Pills as have your friends and neighbors. A Mt. Sterling case.

Mrs. J. C. McDonald, 115 Queen St., Mt. Sterling, says: "I suffered with my back and had no energy to do my work, especially mowings. I had such severe dizzy spells that I almost fell. My kidneys were not acting right at all and I had frequent headaches and nervous spells. Doan's Kidney Pills, procured from Land & Priest's drug store strengthened my back and relieved the dizzy headaches and other symptoms of kidney trouble."

ANNOUNCEMENTS

We are authorized to announce the following persons as Democratic candidates at the State Primary, Saturday, August 4, 1917:

FOR CITY ASSESSOR
T. B. Rodman

MR. T. B. RODMAN

When Mr. W. T. Fitzpatrick, Jr., some months ago resigned as City Assessor, the Mayor and City Council elected Mr. T. B. Rodman in his stead to act until the people could fill the vacancy, as required by law. Mr. Rodman is now desirous of filling out the remainder of the term and will therefore be a candidate at the primary on the fourth of next month.

During the time he has held the position he has made one assessment which he did in a business-like, impartial and thorough manner. We have heard many favorable comments upon his work, and being in every way capable and deserving, we submit his claims to the careful consideration of his fellow-Democrats of Mt. Sterling.

KEEP THIS PAPER

According to the daily papers conscription for army service will be conducted by lot with the county as a unit and not by precincts, as has been supposed. The local board has arranged the names alphabetically and numbered same from 1 to 926. In order that the people may have such list for future reference, we are reproducing same without change, in this issue. Lay this issue of The Advocate away, so when the numbers are drawn, you will have it to consult.

Now that the Russians are back on the firing line, the fighting days of Kaiser Bill are numbered.

MARRIED LAST WEEK

Mr. George Heinrich, son of Mr. and Mrs. Thomas Heinrich, and Miss Anne V. Hollon, of Neola, Ky., eloped to Jackson last Tuesday, where they were married. After a short visit to relatives in this city they will return to Neola, where Mr. Heinrich is associated with his father in the poultry business. Both are popular with a large circle of friends and the Advocate joins them in wishing the happy couple every joy.

\$25,000 FIRE AT MOREHEAD

A fire which did damage to the extent of approximately \$25,000, swept several business houses at Morehead last Friday night. A livery stable, grocery store and the Mountaineer office and the residence and office of Dr. Blair were completely destroyed and several adjoining buildings badly damaged.

The dairy herd and complete outfit of J. H. Blount will be sold at public auction at the J. P. Sullivan place, on Winn street, Saturday morning at 10:30 o'clock.

TROUBLE NARROWLY AVERTED

But for the timely interference of neighbors this city last week came near witnessing a tragedy owing to the statement of a man that he "hoped that every ship that Uncle Sam sent across the ocean would be sunk." This statement, it is understood, has been made by a citizen living in the western end of the city on several occasions and when he repeated this to a citizen who has a son in the army it so aroused him that but for several friends restraining him he would have done bodily injury to the man. A man that would make a statement such as that accredited to the above citizen should be handled by the authorities and we understand that the matter is being looked into.

Any man that is getting his living here and receiving the protection of this great government owes allegiance to our flag, and as far as we are concerned we hope that every man that is not loyal to the stars and stripes will be deported.

WILL SAIL FOR FRANCE

It is reported that Dr. Scott Goodpaster, of Owingsville, formerly of this city, left for New York City Saturday and will shortly sail for France to offer his services as a surgeon in any hospital near the front wherever his services are needed. It is also reported that Mrs. Goodpaster will later join him, giving her services to the government.

DIED IN ARKANSAS

Mr. Buford R. Boone received a telegram Thursday morning bearing the news of the death of his step-mother, Mrs. J. T. Boone, which occurred early that morning at her home in Earl, Ark. Before marriage, Mrs. Boone was Miss Emma Ray, of Dallas, Tex. She is survived by her husband and one daughter, Miss Anna Senle Boone.

RELEASED FROM SERVICE

Sheriff Harry F. Howell has been notified that he has been released from service on the draft board as he is subject to draft himself. Mr. J. Will Clay has also been released as he has a son subject to the military draft. As yet Gov. Stanley has not made known his selections to fill the vacancies.

HAVE NO OPPOSITION

Henry Botts and Ed. Stockton, the Republican candidates in the third ward for City Councilmen, have no opposition in either party. Both are colored men of good sense and judgment and have been members of the Council for several years and are a credit to their race. We wish Mt. Sterling had more colored citizens of their kind.

N. Y. DOCTOR FINDS

CURE FOR GANGRENE

Dr. Carroll G. Ball, of the Rockefeller Institute for Medical Research, has announced a discovery which will probably save the lives of thousands of soldiers during the war. It is the discovery of an antitoxin that neutralizes the work of germs in wounds where gangrene usually develops.

Dr. Ball has tried the experiment out on guinea pigs with splendid results. He is the first American doctor to make such a discovery.

NATIONAL HOTEL RENTED

Mr. John D. Wyatt, well known hotel man of Maysville, has closed a deal with Mrs. J. W. Barnes for a three years' lease of the National Hotel property in this city, which Mrs. Barnes recently acquired from the Ewing heirs. Mr. Wyatt, it is understood, will get possession at once and open the famous old hotel in a few days. The place was recently rented to Wm. Huls but the deal fell through before possession was given. It is said that Mr. Wyatt will remodel the building throughout, installing water in every room and adding many other modern improvements. He is a hotel man of long experience and will doubtless make a success of his venture in this city, where another hotel is badly needed. Mr. Wyatt is a kinsman of Mr. B. F. Wyatt, of this city, and was formerly engaged in newspaper work. He is one of the best known men in the State and will be a valuable acquisition to Mt. Sterling's citizenry.

FOOD FOR CONGRESSIONAL THOUGHT

The brilliant success of the Liberty Loan should cause Congress to ponder well the temper of the American people as to ways and means for prosecuting the war.

It is significant that while thousands of men in the lumber walks of life were making sacrifices to subscribe to the loan, these same men and other thousands were at the same time protesting to the utmost against the action of Congress in the matter of war taxation.

No graver mistake could be made than to saddle upon the people just at this time an onerous schedule of taxation. The country is now in the full swing of a campaign of industry and production that is going to require the use of every dollar that every industry can muster. But while this is true, there are billions not actively employed that can be procured by the sale of bonds.

The bond issue is the fair and equitable plan of financing the war. It affords the subscriber the opportunity to do his bit without feeling that his business is being cramped and hindered by an oppressive burden of taxes, just at the time when he most needs all of the resources at his command.

The people of this generation must pay heavily enough, in cash and blood. Those of the coming generation should assume their share.

Bond issues will insure a fair and equal distribution of the expenses of the war.

There is no safer or saner method.

Notice to Contractors.

Sealed bids will be received by the Montgomery Fiscal Court at its next meeting, August 7, 1917, until 10 o'clock a. m. for the improvement and construction of 2,500 feet of road (from station 90 to 115), according to the plans and specifications now on file at the County Clerk's office, beginning where the macadam ends on the Mt. Sterling & Jeffersonville road and running south over what is known as the Pratt Hill. The County reserves the right to accept or reject any and all bids. For further information see 2-3t

W. F. Horton,
County Road Engineer.

CHURCH DEDICATION

The new Sugar Grove church, near Stepstone, will be formally dedicated on Sunday, July 29th, with an all-day meeting. A big old-fashioned basket dinner will be served. Rev. Clyde Darsie, of Mt. Sterling, and Rev. M. A. Hart, of Owingsville, will preach. The building has just been completed recently and is one of the nicest in that section of the county.

Reasons!

Why you should use Cardui, the woman's tonic, for your troubles, have been shown in thousands of letters from actual users of this medicine, who speak from personal experience. If the results obtained by other women for so many years have been so uniformly good, why not give Cardui a trial?

URGED TO CAN AND DRY SURPLUS FRUITS AND VEGETABLES

Every housewife this year should restore to her home the often overlooked home industries of canning, preserving, pickling, and drying of perishable fruits or vegetables. The large number of new back-yard gardens which have been planted this year shortly will begin to yield their extra harvest of beans, peas, carrots, beets, sweet corn, and tomatoes. The regular supplies also will reach the markets and, as happens each summer, the local supply at times will exceed immediate consumptive capacity. Not to conserve much of this surplussage of valuable food would be sinful waste.

The present food and labor situations are such that no household is justified in looking to others to release it wholly from individual responsibility and constructive action in saving and conserving food. All any home should expect of others is to supply those foods which cannot be produced effectively by its own members. The railroads will be burdened with the transportation of staple foods and civil and military necessities from localities of production and manufacture of districts incapable of supplying their own needs. It follows that all locally produced foods, conserved by home methods, lessen the winter pressure on transportation agencies and also release similar products of factories for other purposes.

I urge every household, therefore, to can all surplus perishable products for which they have containers and to dry and keep in paper any additional surplus suitable for such preservation.

Canning calls for no special skill and for little equipment beyond a wash boiler and jars. Fresh products, cleanliness and heat are the chief requirements, as even sugar is not essential for canning fruits under modern procedure. Fruits and vegetables, moreover, can be dried efficiently in the sun, over a range or gas stove, or before an electric fan. Homemade shallow trays of wood or heavy wire screen are the chief equipment required. Drying is a time-tried home industry; conservation of food by drying is largely a matter of restoring to the home great-grandmother's method of seeing that her family had good food in winter as a relief from a monotonous diet of root vegetables. Canning and drying can be practiced as effectively in a city house or apartment as on a farm or in a suburban dwelling.

Canning, of course, already is a profitable industry for women and children in thousands of homes and I trust will become almost universal this season. To aid the home conservation movement, the Department of Agriculture has issued a new Farmers' Bulletin on home canning and another on home drying of fruits and vegetables. These free pamphlets should be read and followed in every household which wishes to translate patriotic impulse into concrete service.

TWO REPUBLICAN CANDIDATES

Mr. Matt Ford, prominent farmer of the Sideview section, filed his affidavit with County Clerk Keller Greene Monday as a candidate for the Republican nomination for Assessor. Mr. Henry Alfrey, well known blacksmith, of this city, also filed his affidavit as a candidate for the Republican nomination for Jailor. Both Mr. Ford and Mr. Alfrey have long been identified with the local Republican organization and are well known all over the county.

At Last—A One-Adjustment Cream Separator

BEFORE you buy any cream separator, come in and look at the Primrose. One adjustment is all that is necessary to keep it in perfect operating condition at all times. This adjustment is a simple one for keeping the bowl at the correct height—an adjustment that you or your wife can safely make, whenever it's necessary. The adjustment is made from the outside of the separator by either raising or lowering the bearing containing the hardened steel point, upon which the spindle revolves. A slight turn with a screwdriver, perhaps once a year, does the work. The Primrose is a well-constructed, close-skimming, durable cream separator. It will make a saving of \$10.00 to \$15.00 per cow in your herd every year. It is made in four sizes to separate 350 to 850 pounds of milk per hour, or from about 40 to 98 gallons. Ask for a catalogue giving a complete description, or come in and look over the Primrose yourself.

ELEPHANTS' CURIOUS TEETH

Whoever has looked inside an elephant's mouth has seen a strange sight. Elephants have no front teeth, and they never eat flesh or any food that requires tearing apart. Eight teeth are all they have, two above and two below on each side, huge yellow molars as wide as a man's hand. Over these hay and fodder are shifted by the queerest, ugliest tongue in the whole animal kingdom, a tongue that is literally hung at both ends, having no power of movement except in the middle, where it shifts back and forth from the side, arching up against the roof of the big mouth like a wrinkled pink serpent. Elephants, like human beings, have two sets of teeth. The milk teeth, which are smaller than the permanent molars fall out when the animals are about fourteen years old. These baby teeth—which are, nevertheless, enormous—are occasionally picked up by circus men among the fodder and preserved as curiosities.

If this war continues long enough a lot of our soft soap patriots will be smothered in their own suds. They won't have the age limit as an excuse.

"CARRY YOUR OWN" SLOGAN URGED BY GOVERNMENT

The Council of National Defense authorizes the following:

How the retail grocers of this country can render immediate and vital service in the present war emergency is indicated in a letter just sent to the Grocers' Association by the Commercial Economy Board of the Council of National Defense. The board has made a careful study of the economies which are possible in the delivery service of retail stores. It has found that the average cost of delivery in retail grocery stores is not far from 3 per cent. of the gross sales.

Often the grocer is called upon to make special delivery of a small article, and he feels it necessary to do so rather than displease and possibly lose a customer. But there would be no danger of loss to trade through declining to make such deliveries if all the retail grocers in a town or city cooperated.

"We realize," says Mr. A. W. Shaw, chairman of the board, "that the cooperation of the public, and especially of the women who do most of the ordering and buying from the stores, is necessary to make these plans a success. To that end we are now making a nation-wide appeal to the consumer. We are urging purchasers to carry home all possible packages instead of having them sent. We are asking women of the country to plan their orders ahead, to systematize their buying so that it will not be necessary to have the grocer's wagon make accommodation trips. We are pressing home a slogan, 'Carry Your Own.'"

Signs prominently displayed in every retail grocery store in the coun-

try, asking purchasers not to require needless deliveries, would have a wonderfully beneficial effect. For instance, we suggest that every grocer display such a card as this:

Don't Have It Sent If You Can Carry It Home.

Your Country Needs the Men and Money Now Being Wasted in Needless Delivery of Goods.

Be Patriotic—Carry Your Own.

Or such a sign as this:

Lighten Your Country's Burden by Carrying Your Own.

Millions of Dollars and Thousands of Men Are Tied Up by Needless Delivery of Goods.

These Men and This Money Can Be Released for Vital Service If You Will Help.

It Is Patriotic to Carry Home All Possible Parcels.

The words: "This sign is displayed at the request of the Commercial Economy Board of the Council of National Defense" may be placed upon such a sign in case any dealer hesitates to take the step on his own initiative for fear of possibly antagonizing his customers.

INSTANT ACTION SURPRISES MANY HERE

This grocer's story surprises local people: "I had bad stomach trouble. All food seemed to sour and form gas. Was always constipated. Nothing helped until I tried buckthorn bark, glycerine, etc., as mixed in Adler-I-ka. ONE SPOONFUL astonished me with its INSTANT action." Because Adler-I-ka flushes the ENTIRE alimentary tract it relieves ANY CASE constipation, sour stomach or gas and prevents appendicitis. It has QUICKEST action of anything we ever sold. W. S. Lloyd, Druggist.

JULY 15 FINAL DATE TO APPLY FOR RESERVE

Men of mature ages are very much in demand for the second series of Officers' Training Camps, despite reports that the places are already crowded. The second series of camps is chiefly for the purpose of filling all places in the grades above that of lieutenant in the first army of 500,000 troops and to fill many places of the lieutenant grade in the second 500,000 to be raised. Men of more than 31 years of age are especially needed.

Attention has again been called to the fact that all application papers must be in by July 15, as no consideration will be given papers received after that date. Applicants in this State should mail their applications to the examining officer, Second Training Camp, 640 West Jefferson street, Louisville.

The classes eligible to apply with the age limits of each class are:

1. Members of the Officers' Reserve Corps (line section) who, through no fault of their own, were unable to attend the first series of camps; also Reserve Officers of staff corps under fifty years of age with at least two months service in war and who have had experience in infantry, cavalry or artillery.

Non-Coms Eligible

2. Non-commissioned officers of the regular army recommended in March, 1917, for temporary appointment in case of war and who, through no fault of their own, were unable to attend the training schools for regular army non-commissioned officers in April, 1917. Maximum age limit fifty years.

3. Resigned officers of the regular army. Maximum age limit fifty years.

4. Men of proper qualifications made eligible for the Officers' Reserve Corps by the army appropriation of May 12, 1917. Maximum age limit fifty years.

5. Men who have qualified for commissions under General Orders No. 42, War Department, 1915. Maximum age limit fifty years.

6. Citizens of the United States who have had war service in the present war as officers or non-commissioned officers of the line in the armies of the allied powers. Maximum age limit forty-four years.

Exceptional Ability.

7. Men of exceptional qualifications who tendered their services to the government prior to June 5, 1917, and who have been listed under G. O. 37, War Department. Maximum age limit fifty years.

8. Citizens with valuable military experience and adaptability for commissioned grade, or citizens who have demonstrated marked ability and capacity for leadership and are clearly adapted for military service in commissioned grade. Maximum age limit forty-four years.

Men who applied for the first series of camps must re-apply whether or not certified or suitable for the first camps. They will be on equal basis with the other applicants.

The minimum age limit, as already stated, is twenty years and nine months. National guard members on Federal service may apply through the proper channels.

This second series of training camps, it is stated, will afford those not in the military service not drafted in the future, the last opportunity to become officers.

Kentucky has been allotted 377 men for the second camp. Letters of recommendation are not wanted for the second camp; instead the names of three responsible persons who best know the applicant are asked.

Army examiners will visit various points in each State after July 15 to make examination of the applicants, and after these examinations are completed, soon after August 1, and before August 10, the applicants will be notified when to report to the camp.

One hundred dollars monthly will be paid all men in the camps, the course to last for three months.

URGES MERCHANTS TO REDUCE DELIVERY WORK

The Council of National Defense authorizes the following:

Retail dry goods and department stores all over the United States have received a communication from the commercial economy board of the Council of National Defense regarding an immediate and vital service that can be rendered by them to the Government in the present emergency. Basing its letter upon the patent fact that the country's resources must be employed to the uttermost in the prosecution of the war, the board says:

"This requires that all unnecessary services shall be eliminated in retail trade as well as in other lines of business. The commercial economy board has made a careful investigation of the economies that are possible in the delivery service of retail stores. This shows that a large number of men and vehicles can be released for military or other service that is essential to the welfare of the country."

The investigations conducted by the board resulted in the accumulation of figures from which accurate data of the utmost importance to the trade have been assembled. They show that a tremendous amount of man power and money now tied up in unnecessary and wasteful work can be released. Delivery service in retail stores can be

very substantially reduced, and it can be reduced immediately by restricting the free delivery of small purchases, by eliminating special deliveries altogether, and by other means.

The board further points out that, though these changes in methods are requested as a potent weapon in winning the war, they are based on principles of sound business and should not only not work a hardship on any person but would correct abuses and leakages long suffered by the trade.

"There is such urgent need for men and equipment in other work," says the letter, "that the country can not endure the waste that is occasioned by the accommodation deliveries of small purchases. If possible, not more than one regular delivery a day should be made over each route. These changes in delivery methods should be introduced as soon as practicable; certainly not later than August 1, 1917."

The board further urges that the acceptance of returned goods be reduced to an absolute minimum and that all nonessential operations in each store be eliminated.

To the Democrats of the 28th Senatorial District:

A rumor is in circulation to the effect that I did not qualify as a Democratic candidate for State Senator in this district.

As a matter of fact, I did qualify as required by law and at the drawing for places, I drew first place on the ballot and confidently expect to finish the race in a like position.

Any friend who hears this rumor, will do me a service by denying the same: Respectfully,

H. C. GILLASPIE
